

**Lokesh
Machines Limited**

About Us:

Lokesh Machines Ltd. established 1983, stands among the top 5 Machine Tool Manufacturers in the country. With more than 34 years of experience in the industry, we offer an extensive range of solutions in the field of Machine tools. We supply machines to more than 300 clients and still counting. The best part is that, our 25 years old machines are still delivering the finished parts with the original accuracies at Ashok Leyland, Mahindra & Mahindra and other OEMs. Also we receive repetitive orders from our customers for the development and expansion of the machines.

Lokesh Machines provides direct employment to over 750 people and indirect employment to over 2000 people. In Lokesh Machines, while on the one hand, one can contribute their knowledge and expertise for the growth of the company, on the other, can gain knowledge and grow in their respective careers. The friendly and welcoming environment in the company, along with its various opportunities and forums helps its employees to be updated and be self-reliant with the market. The management practices open door policy and is open for new ideas and suggestions from all its employees. By being a part of the Lokesh Family one can learn and grow professionally and have a great exposure to boost one's career.
