DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

PROGRAM EDUCATIONAL OBJECTIVES (PEOs):

PEO-1: To enable the students learn the fundamentals of Electronics and Communication Engineering very conceptually so that they can continuously update themselves in the context of growing technology.

PEO-2: To make the program rich in core subjects so that the graduates in Electronics and Communication Engineering can fit themselves in any relevant industry (or) pursue higher learning.

PEO-3: To introduce many soft electives in the program so that the students can grow in the field of his/her personal interests and cross-migrate if they chose so.

PEO-4: To make the program accommodate very general subjects like environmental sciences, Professional Ethics etc., so that the Electronics and Communication Engineering graduates develop a broad and soft Personality useful to the community in general.

PROGRAMME SPECIFIC OUTCOMES (PSOs)

- **PSO1:** Apply science, engineering, mathematics through differential and integral calculus; to solve complex electronics and communication engineering problems.
- **PSO2:** Demonstrate proficiency in use of software and hardware required to practice electronics and communication profession
